13 FACE OUSTER BY MEDICAL BODY IN STEINER FIGHT

Resignation of Cancer Clinic Staff Seen as Only Alternative in Row Over Operation of Pay Wards by City.

SHOWDOWN LIKELY BY FIRST OF YEAR

Fulton County Medical Society Resolutions Attack City's 'Practice of \$12,786,000 Sought; Con-Medicine' at Hospital.

Resignation of 13 leading Atlanta physicians from the visiting staff of the Albert Steiner cancer clinic, unless the institution becomes strictly a charity ward by January 1, 1933, or ouster of the members of the staff from the Fulton County Medical Society were regarded as alternatives Monday when drastic action of the

medical association came to light. While resolutions which were adopted unanimously at a meeting

adopted unanimously at a meeting held last Thursday did not state specifically that names of the 13 doctors would be stricken from the society rolls, it was generally conceded among members of the association that unless "the practice of medicine by the city in which the staff assists is stopped, the doctors can not retain membership in the association." The societion and the stricken from the society rolls it was a membership of 400, including the 33 members of the Steiner visiting staff.

A showdown is expected about the first of the year unless the conservative element in both camps reach an amicable adjustment. And that sign, President Peter B. Carey indicated, will hang out until this year's crop is marketed—and perhaps another harvest, too. For the board of trade attorneys were busy drafting a petition to the United States circuit court of appeals challenging the constitutionality of the grain futures act and attempting to set aside the penalty of 60 days shutdown. The court action will be taken probably by Wednesday.

WASHINGTON, July 25.—(P)—
Reassurance to business and a sharp retort to public statements by the president of the Chicago board of trade were combined in a formal statement today by the federal officials who ordered the grain market's 60-day suspension.

"The officers of the board of trade and their lawyers know quite well that in the end the operations of the board need not be suspended," said the three cabinet officers who form the commission created by the grain futures act.

They are Attorney-General Mitchell and Secretaries Hyde of agriculture and Lamont of commerce. They added flatly:

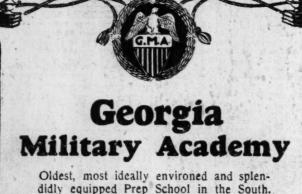

"Statements reported in the press to have been made by the president of the Chicago board of trade... are calculated to mislead the public as to the situation."

He broke into a babbling, disjointed socialist speech, reiterating that he had acted alone and that he held nothing against "poor M. Doumer" but intended only to kill the president of France, thinking he was the political ruler of the nation.

He leaned heavily on the railing, gesturing wildly toward the 16 jurors and Presiding Judge Dreyfus, who sweltered in his ermine robes.

The court questioned the assassin for 90 minutes, seeking to establish that he was a bigamist—his wife in widow's weeds appeared in the court-room—and that he had been accused by Czech police of bothering girls whom he hired as maids while living at Prague. The court blocked the attempt of the defense lawyer. DALTON, Ga., July 25.—A crowd so large that it could not be accommodated inside the building gathered on the lawn of the Whitfield county courthouse today to hear Eugene Takmadge advocate the election of a governor who is not afraid to risk a row for his principles.

When it became apparent that only about half the crowd could gain access to the courthouse, the meeting was adjourned to the lawn, where the speaker was introduced by John L. Kenemer, prominent farmer, as the next governor. Circuit Judge C. C. Pitmau adjourned court and presided at the meeting.

Talmadge flayed certain of his op-ponents who, he said, are emphasizing what they declare to be the need for a leader who will work smoothly and

without disturbance.

The response to Commissioner Talmadge's address was enthusiastic, the speaker frequently being interrupted by cheers, applause and expressions of approval.

He spoke along the usual lines,

Treasury Will Issue New Money If Necessary Bonds Deposited.

WASHINGTON, July 25 .- (P)-More than \$6,000,000 in new cur-

More than \$6,000,000 in new currency will be issued by the treasury shortly if inquiries by a score of national banks as to the workings of the new money expansion law are followed up with deposits of the necessary security bonds.

Banks in all parts of the country were said at the treasury today to be showing a lively interest in the recently enacted Glass-Borah amendment to the home' loan bank law which permits national financial institutions to issue currency on securwhich permits national financial institutions to issue currency on security of government bonds bearing not more than 3 3-8 per cent interest.

These banks could issue new currency to the extent of their individual capital stock and if taken advantage of the limit the law would put \$995.000,000 of new money into circulation.

Seek Information.

The inquiries received by the comptroller of the currency today asked how soon the new provision could be put into effect. Some officials termed the inquiries applications for permission to issue currency while others held they were only informal requests and said the bonds to guarantee the currency had not yet been deposited.

The offices of the comptroller and treasurer said several minor points of law remained to be threshed out before the new currency could be issued. They added, however, that their forces would be ready to turn out the new money in less than a week's time.

The Riggs National bank of Washington was said to have indicated a desire to issue \$3,000,000 in new currency while the Denver National bank and the indicated it wished to issue \$1,500,000.

Other requests for information came from the Halstead Exchange National bank, Stroud, Okla.; First National bank, Fortville, Ind.; Union National bank, Fortville, Ind.; Union National bank, Fortville, Ind.; Union National bank, Wilmington, Del.; First National bank, Wilkes-Barre, Pa.; Citizens National bank, Rottville, Ind.; Union National bank, El Monte, Cal.; First National bank, Wilkes-Barre, Pa.; Citizens National bank, El Reno, Okla., and Planters National bank, Fredericksburg, Va.

Law Described.

The new law will work in this fashion: A bank having \$100,000 in eligible bonds could issue a total of \$95,000 in new currency. First the bank would have to deposit the bonds with the treasurer of the United States, but would continue to receive the interest from the government called for by the bonds.

GEORGIA TO EQUAL TEXAS' WET VOTE, SAYS MRS. HEALEY

Senator's Proposition Regarded in Capital as Opening Overture.

BY FRANCIS M. STEPHENSON.
WASHINGTON, July 25.—(P)—Hope that the United States will take the initiative in calling a world economic conference was expressed today by Senator Borah, of Idaho, as the administration kept its silence on his proposal.

This studied silence by the government and the imminence of necessary new war debt negotiations at the close of the moratorium year in December were coupled by some observers as a basis for speculation.

In other words, the European nahold, the people have realized that

leaves them less able to pay than when the moratorium was put into effect.

Borah's proposition to trade war debts for disarmament and reparations cancellation in the interests of world recovery is regarded at the capital as the opening overture.

Apparently the reaction to this bold offer of a world economic parley is being watched, particularly by those in command of the governments who would necessarily have to call any conference which would be held.

While congress today is adamant against debt cancellation or even revision, both national parties have described to the conference of the described when the socialist government of Carlos Davila took over the helm have been employed in Chile when the socialist government of Carlos Davila took over the helm have been employed in Chile when the socialist government of Carlos Davila took over the helm have been employed in Chile when the socialist government of Carlos Davila took over the helm have been employed in Chile when the socialist government of Carlos Davila took over the helm have been employed in Chile when the socialist government of Carlos Davila took over the helm have been employed in Chile when the socialist government of Carlos Davila declared in a radio address to the nation last night.

Two State Champions From Land of Five-Cent Cotton Will Bear Watching.

Two state champions from the land of 5-cent cotton will bear considerable watching when the twosomes tee off in the qualifying rounds for the national amateur golf championship next month.

They are Emmett Spicer, the Memphis golfer, who won the Tenessee state title for the fourth time last Saturday, and Charley Yates, the Atlantan who recently won the Georgia title for the second consecu-

Spicer is the veteran of the two. He is 27 years old and has won the southern twice, the Tennessee state four times and va-rious municipal titles a number of times.

The Tennesseean is approximately the same size as the rather slight

Yates, the Georgia champion. Neither apparently has the power to drive a golf ball. Yet both get tremendous distance from the tees and from the with irons. Each has enough of that rhythmic flow of power that marks the shot-maker. Spicer uses even lighter clubs than Yates.

Spicer is no novice in the national amateur qualifying rounds.

His first effort was made some years ago: He went east to qualify,

and failed.

"What kept you from qualifying?" a friend asked in Nashville.

"About 45 better golfers than I am," said Spicer.

"Spicer has been the most consistent golfer in the south. Last year at Beverly Hills, Chicago, Spicer qualified with a 154 in the amateur. He his first round match and then lost, 4 to 3, to Maurice McCarthy when his putting went havwire.

Yates is expected to qualify this year, which is putting a rather heavy purden on the sturdy shoulders of the East Lake youngster. He has had enough tournament experience to steady his game. Perhaps his most remarkable bit of golf this summer was going to the semi-finals in the south-aern at Birmingham despite the fact that his game was gone. He got together enough pieces of it to go that far.

The Chattanooga officials hope for a winning streak which will catch the Memphis club in a slump so that lost ground will be regained. The idea seems to be that a neck-and-neck race with the Memphis nine will

Cousin Joe Engel, who plastered \$200 fines on each of the belligerent young businessmen, is in Washington, and the report in Chattanooga is that the blow-off is coming about August 6 or

a day or so after.

The blow-off is to be a shake-up in the club with Washington sending as many men as can be got out past the waiver laws in the American league, into the Chattanooga ranks for a final charge at pennant hill. Pending Engel's arrival Billy Bayne, the southpaw, is being held off the list. Mails, whose salary is so large that it will be a decided relief to get rid of him from that angle, is looking about. He is slated to go. Engel's eturn from Washington will find all plans made for the final effort to

JIM BRYAN JOINS UP.

Jim Bryan is probably the best outsielder the Crackers have had this season. The young fellow, who joined the club Sunday in Chattanooga, looks great and hits well.

This may be putting the young Tennesseean in a spot for tonight's engagement with Knoxville, but regardless of what happens
in his first local appearance he is a real outfielder. Bryan should
make the Cracker outfield considerably stronger.

The Cracker officials seem to be taking the proper course in giving
young players a chance now and then. Duck McKee, former Tech

football and baseball player, hit a great home run in the Sunday doubleheader to score two men ahead of him.

Officials of the club have given no indication of what their plans are, but several young players are being considered. With the Central league and Western association due to close within the space of two weeks, there will be a number of "B" players

Art McHenry, the Atlanta boy purchased from Toronto, will be given

a chance in the lineup within the next few days.

It is possible that Red Barron, manager, will suspend himself for tendays to give his injured ribs a chance to heal. They were kicked quite

a bit in the recent altercation on the field with one of the Chattanooga
players. All good clean fun, of course, but then Barron's ribs persist in
hurting.

TENNIS TROUBLES.

One of the young men in the east brightly suggests that the bonus expeditionary force in Washington may be moved from the city by the simple expedient of entering them all in tennis tournaments where all expenses are paid. This would move them right out of the city and

keep them traveling.

All this bother about the amateur tennis tournaments in which, it seems, it is customary to pay the expenses of the visit-ing athletes, is likely to lead to that much-desired open tennis championship if many more clubs follow the lead of the Seabright club in paying expenses only as long as the players are in the

The golf association adopts a very strict attitude and demands that The golf association adopts a very strict attitude and demands that each amateur player pay his own expenses. The idea seems to be that if he cannot pay them he has no business playing amateur golf. Which is much the same attitude displayed by one of the Morgans when asked by a friend what it would cost to maintain a yacht. The financier is reported to have replied that any man who had to think about what it would cost to maintain one couldn't afford one.

There has never been any real argument advanced as to why the professional tennis player should be viewed with alarm by his amateur brother, or rather by the keepers of the amateurs.

Players who have struck against the Seabright rules have taken a

The latest message told Ma and her party to "hurry over." This is easily explained. The Stribling men are great family people. They don't like to deploy themselves through a strange land without the counsel and comfort of their wives. And the fact that Ma and Clara and the kiddles were sent for evidently means that Pa has found the situation more to his liking than he had imagined and that he may prolong the visit to admit a few more fights.

They plan to stop at Honolulu on the way back and Jeff Dickson has offered W. L. a shot in London. This lings may be the fongest yet; for things an offered W. L. a shot in London. this morning that old Santa Claus is a very nebulous quantity.

For eight innings vesterialy the Terrors held the toes of the Grant Park Aces to the fire with a four-run lead. They were playing like champions and the Aces anything but champions. Then up came the ninth, and the Aces, who have a penchant for getting a whole lot of runs in that inning, came up with four to tie the score, drive young Roy Shoemake from the box and go on to win the ball game in the twelfth inning off Jim Bagby Jr., son of the illustrious big leaguer, by the score of 5 to 4.

DAVIS CUP ACES OBSERVE REST Johnny Jones

PARIS, France, July 25.—(P)—America's Davis cup youngsters—Ellsworth Vines, Frank Shields, Wilmer Allison and John Van Ryn—laid aside their racquets today until Wednesday to guard against staleness for the big week-end battle with France for the historic tennis trophy.

Vernon Prentice, non-playing cap-tain of the team, took his athletes to Saint Cloud this morning and they will spend much of their time in the country around Paris until time for the matches.

Vines appeared fully recovered from the slight indisposition that made his play slightly erratic against Gottfried Von Cramm, the German he defeated yesterday to clinch the United States' right to a place in the challenge round.

All the players promised they would take proper care of the stomachs, and evade the troublesome possibilities of vines risked when he treated himself to a variety of clashing foods, with a resulting loss of sleep the night before he play Von Cramm.

The French press warned Vines that "little causes have great effects" and advised him not to eat cucumbers and pork before he takes the court against Henri Cochet.

But Coach Lawson Robertson of the United States track and field team had his field glasses properly adjusted when the lion went into preliminary action for the first warm-up. It seems that Coach Robert-son has a deep respect for those leonine legs and he was anxious to see just how they were working.
You can't blame Robertson for this unusual interest. Back in 1924 he saw Harold Abrahams run away with the 100 meters, Eric Liddell capture the 400, Douglas Lowe romp away with the 800 and Stallard chase Nurmi to the wire in the 1500 before Stallard collapsed and crash-The rough and tumous new round of eliminations to use the present standing of the arious heavyweight pretenders.

One of the smallest crowds in Garden heavyweight history, a scant 6,000, sat apathetically through the long battle and, from the sound of the boos at the end, voted viva, voce for the elimination of both warriors. There were no knockdowns and, aside from free-punching flurries in the ninth, fourteenth and fifteenth tounds, the two bull-chested battlers were content to plough up the resin with their feet and massage each with the rounds, the two bull-chested battlers back and see the Olympic ghosts of Canda, who is back again.

'FATHER OF AVIATION DIES IN RIO DE JANEIRO

Alberto Santos-Dumont Succumbs After Long Period of Ill Health.

RIO DE JANEIRO, July 25.—(P)
Alberto Santos-Dumont, 59, known in
South America as the "father of aviation," and contemporary of the
Wright Brothers in the early experiments of the 1890's, is dead.

The veteran flyer of balloons, dirigibles and airplanes, most of whose
exploits took place in France up to
1909, when he quit flying, succumbed
at Sao Paulo yesterday to an illness
contracted in France. He returned
to Brazil over a year ago to try to
regain his health.

Born in the state of Minas Geraes,
in southern Brazil, he was a son of
Henri Dumont, an engineer by profession, but a coffee planter by vocation. He showed an early bent for
mechanics and spent much of his time
as a boy watching the machinery used
for handling the coffee his father
grew.

The manonlane was his principal

for handling the coffee his father grew.

The monoplane was his principal contribution to aeronautics, however. He designed it after a period of experiments with seaplanes which was not very successful.

In 1928, during a huge celebration for him in Brazil on his return from France, a large plane, named after him, crashed into the harbor at Rio de Janeiro as it circled the steamer on which he was arriving, killing all 14 occupants, including several women.

women.

The shock bore heavily on him. He went back to Paris a month later, but his health began to fail and when he returned here in June last year he was a sick man. He retired immediately to Sao Paulo, where he has lived since.

SOUTH FOR 66 YEARS"

Camp Civitania Holds Celebration For Holidays Today

Girl Scouts at Camp Civitania are celebrating Christmas today. Throughout the camping season various holidays have been celebrated and it is appropriate that the last d. y of camp should be Christmas Day. Last evening a group of campers dressed in traditional carolers' costumes went from hut to hut serenading with Christmas carols and everyone hung up her stocking for old Santa to fill. Christmas will be a gala day with a big Christmas dinner with chicken and cranberry sauce, favors and other trimmings, a Christmas tree with gay decorations, and a camp fire with a lovely Christmas play. Santa Claus will deliver presents to everyone.

Last evening a group of Boy Scouts from Bert Adams camp were guests of Civitania for supper and Christmas Eve camp fire. Sunday the Scouts presented a swimming pageant entitled "The Princess Learns to Swim." The principal characters were portrayed by Misses Pegzy Ray, Jean Ray, Marion Oliver, and Annie Laurie Kurtz.

FRIENDLY COUNSEL

Problems of general interest submitted by readers will be discussed in this column. Correspondence invited. Your name held in confidence. Write Miss Chatfield, care The Atlanta Constitution.

Why did he marry her, why did she marry him? Have you ever heard that question asked? Perhaps you have asked it yourself about some acquaintance whose marriage appeared preposterous. The chances are that neither of the principals to that marriage could answer the question any more satisfactorily than can you. There is an answer and Mother Nature knows it. It is she that takes blindfolded, bewildered men and women by the hand, men and women that lack they know not what, and leads them straight to the arms of other men and women that lack and know not what they lack; all of them consciously or unconsciously searching for that complimentary something which, being blindfolded, they cannot see.

Mother Nature, sly, shrewd selector and matchmaker that she is, gives each of these helpless children the impression that she is aiding them in their private search for happiness. But the individual's happiness is the least of her consideration. Truly, she is not concerned with the happiness of the man or the woman. She is only concerned with their progeny. She mates weakness with strength, in order that weakness may not be perpetuated. weakness with strength. in order that weakness may not be perpetuated. She mates the big bodies with the small bodies in order that the children may not be too small but large enough. She is sorting and selecting with the result that her subjects are often suffering in their execution of her commands. She is entirely indifferent to the adjustments that her couples must make with each other. Her work of matiag having been accomplished she sits back and smiles with admiration of her handiwork.

She has led to the sweet simpering miss a stalwart, strong man. She has led to the independent self-reliant woman a dependent man with distinctly feminine characteristics. To the dominating imperious woman she has led a man that needs direction and permits himself to be governed by this dominating wife.

To the homely, unattractive woman she has led an Apollo of a man. To the loving, helpless, clinging vine she has led a stout and sturdy male to whom she may cling. These are the sorts of matches she makes if left to her own devices and she can and does justify her judgment in the results obtained. But, understand, there are ways of circumventing nature's designs. There are tricks in all trades. Marriages may be made without consultation with nature. Marriages may be made without consultation with the mind and many things can influence men and women in their mating. Money is one, power is another, position is another, education is yet another.

promising children, born to success and distinction, are the products of marriages where the couples were apparently mismated? How often it happens that the most successful children are born of parents totally dissimilar in disposition, uncongenial in tastes, and therefore uncompanionable! It is one of Nature's mysteries that she should in many cases sacrifice the happiness of the individuals to the breeding of a better race. She counts no sacrifice too great to secure this end and she spares no pains in the consummation of it. Whether in the vegetable or in the animal kingdom Mother Nature's sole concern is with reproduction.

CAROLINE CHATFIELD.

Caroline Chatfield: Dear Miss Chaffield:
Your advice will be appreciated in this little matter. I am 31 years old, have been married twice, each marriage ending in divorce. I am now going with a woman also divorced. She has two children. We drink together and have lots of misunderstandings. I have been trying to get rid of her for three months but she won't take quit for an answer? I work at night and she gets to my house at 5 o'clock in the morning. I have done all 4 know to do to get rid of her but all I get is "I can't give you up." She wants to marry me and I just can't see it that way. I will take any advice you have to offer as to an effective way to ditch her.

ANSWER:

ANSWER:

Tom, it looks like you have to marry them to get rid of them. Pretty effective you have dound the divorce courts, it seems. However, that is a rather expensive method for purse and pride. It appears to me that your "little matter" is a apretty big matter, since you haven't the courage to tell the woman the truth. Perhaps lacking the courage to fight it out on the home ground, you might run away. Men have found that a very effective method of getting rid of persistent females. If you cannot leave your job you might at least move your domicile. Then after arising at 5 in the morning and journeying to your former residence to find you absent the young woman might become discouraged and let you alone.

However, if you have made a habit of drinking together, there is a strong possibility that she has (in the vernacular) dead wood on you. A respectable woman needs only an intimation of a man's desire to get rid of her, but in the case of one that drinks and meets a man at his home at 5 a.m. there is some doubt as to what it will take to ditch her. Perhaps you had better consult a lawyer now, rather than later. I Perhaps you had better consult a lawyer now, rather than later. I am afraid I cannot offer you the advice you erave. Remember, there are two codes, legal and moral.

game, whether or not the partnership making the Overcall has opened the bidding. This Overcall, when the partnership has opened the bidding, carries with it, even in the early stages, the suggestion of the possibility of a Slam depending upon finding a fitain the hands, or, perhaps, may be made when one player already knows the fit of the hand and desires to convey definite information to the partner at the earliest possible mo-

Through overcalling two suits bid by opponents, as well as an accurate appraisal of the combined strength appraisal of the combined strength of the hands, two expert players eventually reached a Slam contract in hearts, which was, of course, laid down. Without the information given by these Overcalls. North and South must almost inevitably have stopped short of the makable Slam.

South knows the fit of the hand in trumps. North's trump suit need not be very strong to limit the possible losers in that suit to one. If there is a heart loser, then certainly there cannot be a club loser, as otherwise North would not have made the Slamcompelling bid of four spades. He would have been content to either rebid his own suit, assist his partner's suit, or pass, assured that South, who had overcalled East's diamond bid, would keep the bidding open until a game contract was reached.

RY JOHN L. COOLEY.

NEW YORK, July 25.—(P)—The stock market showed through its early Jaue highs in relatively active trading today, accompanying another mark-up in bond prices.

Speculators for the advance were assisted by brisk short covering in a number of shares. notably United States preferred, which jumped 5 1-4 points.

Generally speaking, stocks enjoyed a broad market. Oils were conspicuously strong, but industrials, rails and utilities moved forward in a manner that bespoke speculative optimism. Further word of scattered business improvement doubtless helped.

The Standard Statistics-Associated Press composite closed 2.3 points higher at 43.6, the best level since mid-May. Thus the market was at last able to better June's peak of 40.6. Transactions totaled 1.545,966, the largest volume since June 2.

Steel common rose 1 1-2, while Bethlehem common and preferred gained 1 1-8 and 3 1-8, respectively. American Telephone, Allied Chemical. Liggett & Myers "B," American Tobacca, Auburn and Santa Fe made average advances of 2 points.

Union Pacific, which is comfortably covering fived charges in these days of railroad deficits, was up 2 7-8.

In the oils, gains ranged from a fraction to 3 points, the maximum rise

tays of railroad deficits, was up 2 7-8.

In the oils, gains ranged from a fraction to 3 points, the maximum rise appearing in Shell Union preferred. Phillips Petroléum, which turned decisively from red ink to black in the second quarter, was active and firm. Railroad earnings for June, so far as received, mostly continue the decline from a year ago and in general are under May's results.

The time money market relapsed to quotations of 1 to 1 1-4 per cent for all maturities, the lowest rates in 40 years. These extremely low returns, while reflecting absence of demand. appeared to be taken as evidence of abundant supplies.

Foreign Markets BY THE ASSOCIATED PRESS.

LONDON-Oil shares and gilt-edged se-curities were bright and active futures on the stock exchange. The former improved on reports of an agreement at the Paris oil conference and the latter on investment buying. Other sections were cheerful in sympathy with these features. Prices de-clined abit from the best in the after-noon on profit-taking. The closing was steady.

PARIS—The favorable outcome of the o conference and the good dispositions of foreign markets holstered prices on the bourse. Gains were slight but steady

SUGAR

NEW YORK, July 25. Raw sugar was firm and unchanged loday. Sales were 37,000 bags of Cubut for prompt shipment and 45,000 bags of Enditopines affort, at 310 to local reflorers.

There was only a small trade in futures, although undertons was steady with final prices unchanged to 2 bitcher on later deliveries. Final prices were within a point of the best. Approximate sales were 5,200 tons, September closed 1,00: December 1,05: January 1,02: March 1,06: May 1,11: July 1,16.

There were no changes in the refined situation. Prices were quoted at 4,10 by one refiner and 4,15 by all others.

COFFEE.

NEW YORK, July 25.—Coffee was firm today on a good demand from trade houses and European interests, believed promoted by the continued tenseness in the Brazilian political situation and the rapidly decreasing coffee stocks in the United States and affort.

Selling was principally by houses with Brazilian connections and other trade interests. No. 7 contracts opened 8 higher and closed 10 to 15 higher. Sales 2,000. NEW YORK, July 25 .- (4P)-Cotton declined 8 to 10 points early today under renewed selling but regained most of the loss before the close. The October position closed at 5.71, or 3 points net lower, while the general market closed steady at 1 to 3 points net decline.

The market opened at 4 to 6 points decline in response to the heavy tone in Liverpool.

Brokers with co-operative connections were again sellers, but when their offers fell off toward the close, the market rallied easily. The trade demand, while not aggressive, seemed to be quite continuous.

The firmer tone in the stock market proved a sustaining factor during the late afternoon session. The stability of the market in the face of some rather disturbing factors in the way of crop advices and uncertainty relative to the disposition of the surplus stocks, came in for a good deal of favorable comment.

NEW YORK, July 25.—The market sold off to net losses of 8 to 11 points today but in the late trading regained most of the decline with final prices only 1 to 3 points under perious close. Walle there commission houses and local professionals, most of the offerings came from brokers frequently handling business for farm board agencies. The latter were estimated to have sold 12,000 to 15,000 laies. Domestic and foreign spinners, Liverpool and speculative shorts were the principal buyers though in the late trading there was a good.

BONDS CONTINUE TO GAIN GROUND

Daily Bond Averages.

BY VICTOR EUBANK. NEW YORK, July 25.-(P)-Railroad and oil loans today gave the and market a semblance of buoyancy as low-priced speculative issues again

leaped forward to new high positions for the present move. The day's activity was somewhat greater than usual, sales totaling \$12,272,000, while the average for 60

corporate securities advanced one-half The carriers continued to reflect the hope imbued by the recent inter-

the hope imbued by the recent interstate commerce commission approval of an eastern railway consolidation.

Rail bonds that recorded gains of from 1 to 6 or more points included asome issues of Baltimore & Ohio, Central of Georgia, Chesapeake Corporation, New York Central, Pennsylvania, Southern Pacific, Southern, Texas & Pacific and Wahash.

Phillips Petroleum 5 1-4s led the oils with a gain of 7 points. Strength was also shown by loans of pure oil, Shell Union and Sinclair,

Bonds of International Telephone, Postal Telegraph, Western Union and American Telephone were in demand with gains ranging from fractions to 2 or more points.

Highlights of Wall Street BY CHARLES W. STORM,

Editor, the News Service of

(Copyright, 1932, by the North American NEW YORK, July 25.—The current upward movement in the general stock market which is being sponsored by important banking interests in the financial district is attracting an outside following, indicated today by the further broadening and increased activity of the list of stocks dealt in.

The encouraging development today was that prices of innumerable stocks got to levels above those made in the June rally without meeting any selling of consequence.

Some of the largest brokerage houses also reported that the general public, attracted by the magnetism of advancing prices, was beginning to show some interest, indicated by a greater volume of business.

The increased strength and activity of such issues as Steel common, Allied Chemical and American Telephone & Telegraph were most heartening. Indications also were that some of the big professional bears who had been opposing the recovery were taking back at higher prices some of the stocks they had sold the last fortnight.

night. STEEL POOL Increased activity and strength of Steel common seemed to bear out reports that a prominent group of speculators had formed a pool in the issue and that it had accumulated approximately 200,000 shares of stock to date. Coming on the eve of preferred dividend action, the formation of this group in the stock is considered significant.

The preferred issue today advanced more than 5 points. While the Street is uncertain what action the directors will take on the preferred dividend payment, the recent sharp advance in the price of the preferred stock seems to presage declaration of the regular disbursement.

disbursement.

OILS CONTINE STRONG.

Oil stocks continued one of the bright spots in the general market, innumerable issues continuing upward and touching new high figures for the current recovery.

Good earnings statements of the oil companies for the first six months of this year were augmented today by the publication of a very favorable statement by the Phillips Petroleum Company.

Some profit-taking began to appear

Some profit-taking began to appear in a few of the oil shares late in the day. This was particularly true of Atlantic Refining which has had a good sized recovery from its lowest level.

EARNINGS INCREASE FOR CITIES SERVICE

Gross and net earnings of Cities Service Company for the month of June, 1932, were higher than those for June last year. Net to common stock and reserve increased 36 per cent, and for both the second quarter and first half of 1932 show increases over the corresponding periods of 1931. The St. Joseph Railway, Light, Heat & Power Company, a Cities Service Company subsidiary, closed a contract in June to electrify the oil-pumping equipment used by Great Lakes Pipe Line Company.

Sales of refined oil products by Cities Service marketing subsidiaries for the first six months of 1932 show a slight increase over the similar period of 1931.

In June subsidiaries completed 31 oil wells in the east Texas fields, bringing the total for the first six months of 1932 to 129.

In the 30 days ended June 15, the number of holders of Cities Service Company common stock increased 3,695, bringing the total to 535,920.

Earnings Increase.

SAN FRANCISCO, July 25.—(A) Southern Pacific Company reported today June operations resulted in a net profit of \$992,729. This was a gain of more than 50 per cent over the preceding month.

June 3.

November 25.

News developments of a character to influence the list were all but lack-ing. The market seemed to be car-ried only by its own momentum. Oils were helped to a degree by the reported agreement in Paris on marketing policies by the British, 2 Dutch, Rumanian and American representatives, and by the improvement in the position of the industry.

Gulf and Humble rose 1 3-4 and 2 3-4 points, respectively, to within striking distance of their 19°2 tops, and Indiana advanced more than a point to 21 5-8, a new top for the year.

In the utilities, Consolidated Gas of Baltimore gained 3 points, American Gas & Electric 1. Cities Service Power & Light preferred issues pushed up 4 3-4 points each in a thin market.

ARMY OF 'HOPPERS' IS UNDER CONTROL YEOMANS REPORTS

Manning S. Yeomans, state entomologist, said Monday that the threatened grasshopper menace near Fort
Valley is well under control.
"A representative of the state entomologist visited the scene of the
reported grasshopper outbreak near
Fort Valley," Yeomans said. "He
found the trouble to be entirely local
and well under control. The insects
had developed in an unplowed wheat
field and moved into the adjoining
fields of corp and cotton.
"An application of calcium arsenate

BILBO LOSES FIGHT ON MISSISSIPPI VOTE

JACKSON, Miss., July 25.—(P)—
Overriding a protest of former Goverriding a protest of former Governor Theo G. Bilbo, now a candidate for congress from the state at large, the democratic state executive committee, meeting here today, ordered that congressional races should be held from districts as set up in the litigated redistricting act.

Threatened internal strife was narrowly averted by the committee over indorsement of the democratic party's prohibition plank and a rejected resolution condemning members of the Mississippi delegation to the national convention for not "whole-heartedly" supporting the nomination of Governor Franklin D. Roosevelt as the democratic standard-bearcr.

PLOT TO WRECK TRAIN FAILS IN ALABAMA AILS IN ALABAMA

BIRMINGHAM, Ala., July 25.—

(P)—County officers and railway officials co-operated today in the investigation of an apparent attempt to wreck a Seaboard passenger train.

Thirteen apikes were pulled from the track at Irondale, Ala., a Birmingham suburth, Saturday night, but the attention of the crew of train No. 5 discovered the condition of the rails and issued a warning.

Train No. 5 remained on the track but railway men said a heavier train might have been wrecked.

FULTON TO START WORK ON 10 MILES OF PAVING ON 10 MILES OF PAVING

The first new road project Fulton county has undertaken in many months will begin this morning when construction will be started on a 10-mile link in the new scenic highway from Atlanta through Neel's Gap to North Carolina, accorning to an announcement by Walter C. Hendrix, chairman of the public works committee of the county commission.

The part of the highway which lies in this county will extend from Roswell to the old Milton county line, through Alpharetta. The work will be started this morning after exercises are held by city officials of Alpharetta and Roswell. Members of the county commission also will be present.

From Filling Stations NEW ORLEANS, July 25.—(P)
Time was when nearly every second street corner in New Orleans boasted a cooling water trough, but more recently the almost forgotten horse has gone about the town with thirst unquenched. Today, however, a farflung chain of filling stations here saluted the deposed king of the boulevards with an invitation to "come in and fill up" with the automobiles. Attendants with buckets, it was announced, were instructed to furnish the water service at the curb. **ADVERTISING** Information

County and city engineers are now engaged in surveying the tract, estimating the amount of arable land and determining what drainage features would be necessary to make the most land available for cultivation.

Another feature of the plan would permit those who cultivate tracts to have a five-year option to purchase their sites at \$30 an acre.

The community house to be built would contain a dining room, pantry, kitchen and living room. Another provision of the offer calls for the construction of suitable houses on each of the 20-acre plots. All the building would be done by the unemployment commission.

fields during this season.

The grasshoppers came from a wheat field, which federal officers said should have been plowed after the harvest to destroy the pests. They grew in such numbers as to ruin large fields of corn and they even attacked the fruit on peach trees.

Growers have used a poisonous spray quite effectively in preventing the pests from spreading beyond these farms. A lot of fishermen who have found grasshoppers good bait also have visited Peach county to obtain a supply.
